

Product Data Sheet

Cable Ties

General Information

AQUASIGN provide Nylon 6.6 cable ties for affixing markers that have been pre-bonded to rigid or strapped backing panels. These cable ties have been chosen due to their high strength and durability, and supplied with a tensioning tool for easy application.

Technical Data

Characteristic	Value
Material	Nylon 6.6
Colour	Neutral (off-white)
Tensile Strength	1115N
Dimensions (Length x Width)	535 x 13.2 mm

Environmental Characteristics

The material from which these cable ties are manufactured has been chosen for its environmental stability and resistance to seawater.

Availability

Cable Ties are a stock item.
